

# Patient Navigation and Community Health Work in Colorado: Improving Access to Care

Join the Colorado Colorectal Screening Program,  
Patient Navigator Training Collaborative & PN CHW PdS Alliance for critical discussions  
about key strategies and priorities to sustain  
patient navigation and community health work and improve the health of Colorado.

Friday February 9th — 1:00pm to 5:00pm

Embassy Suites — 4444 N. Havana St. Denver. CO 80239

## **Keynote Speaker & Afternoon Moderator: Dr. Amelie Ramirez**

*Dr. Ramirez is an internationally renowned cancer health disparities researcher. Over the past 30 years, she has directed many research programs focused on human and organizational communication to reduce chronic disease and cancer health disparities affecting Latinos, including cancer risk factors and genetics, clinical trial accrual, tobacco prevention and cessation, obesity prevention, and more. Dr. Ramirez is a true champion for patient navigation and community health work.*

## **Why should I attend?**

- To hear about the current state of patient navigation & community health work in Colorado and nationally
- To join the conversation about sustaining efforts in patient navigation and community health work
- To share your opinion about the advancement of patient navigation and community health work to improve access and quality of care in Colorado.

**Additionally, participants are invited to attend the following morning sessions on February 9th.**

**Morning Breakfast: Call to Action** —Colorectal Cancer– Screening Join the Movement to reach 80% by 2018!

**Mid Morning: Lessons Learned in Cancer Prevention Navigation**—The Colorado Colorectal Screening Program Past, Present & Future
